

# March Against Incineration

## Saturday 16th October 2021, Portland

March against incineration on **Saturday 16 October**. Gathering **10am** on the green beside Victoria Square roundabout and marching to Portland Port entrance and back to the green for a community conversation where we can use our collective imagination to vision the future we need and want.

Create your own placards and or banners if you wish to communicate your messages to Powerfuel, Portland Port and Dorset Council who will meet to decide this application on 4th November.

We have been campaigning for nearly 2 years against this application for a monster waste burner. We have signed petitions, submitted objections, written letters, been on a march, attended protests, put up banners, funded costly legal advice and yet the few are still trying to push this toxic project through!!

Say NO to our air being polluted. Say NO to our resources being destroyed. Say NO to contributing to climate catastrophe.
